About Kothari Metsol

Kothari Metsol Pvt. Ltd. (KMPL), operating under the trusted brand Khosla Solders India, is the definitive name in solders since 1966 and a trusted brand in zinc spray wire. Evolved on German collaboration, KMPL's infrastructure has grown from a conventional zinc wire plant into a world-class manufacturing facility, using semi-automatic extrusion and wire drawing systems to deliver consistent, top-quality wires for spray metallization, corrosion protection and soldering applications.

First and only zinc wire manufacturer in India and Asia to operate the CONTINUUS PROPERZI Continuous Casting and Rolling Line.

Since 1966

Legacy in solder & wire manufacturing

1,200 MT

Production capacity per month

Asia's First

Properzi Casting & Rolling Line

Why Industries Trust KMPL

Industry-leading technology and decades of proven reliability.

- **Industry-Leading Manufacturing Technology** — Asia's first zinc wire manufacturer with CONTINUOUS PROPERZI Casting and Rolling Line.
- **High Production Capacity** — 1,200 MT per month, ensuring uninterrupted supply for large-scale projects.
- **Application-Focused Product Range** — Thermal Spray Wire, Zinc Wire & Zinc Aluminium Wire built for metallization.
- **Proven Industrial Reliability** — Trusted for capacitors, anti-corrosion protection & spray metallization.
- **Established Manufacturing Expertise** — Decades of experience as a leading zinc & solder wire manufacturer.

Our Product Range

A comprehensive range of solder, zinc and aluminium wire products.

1. **Solid Solder Wire**
2. **Rosin / Urea / No-Clean Flux Core Solder Wire**
3. **Leaded Stick & Fluxes**
4. **Lead Free Solder Wire & Stick**
5. **Zinc Wire, Rod, Anode & Profile**
6. **Zinc Aluminium Wire**
7. **High Purity Aluminium Metallization Wire**
8. **Anode, Profile & Extrusions**

Industries We Serve

Our zinc aluminum alloy wire and solder wire have replaced imported products, giving customers a competitive edge with immediate availability and cost efficiency.

1

Marine & Offshore Applications

For TSA and aluminum alloy wires

2

Ductile Iron Pipe Industry

For thermal spray metallization wire

3

Capacitor Manufacturing

For high-grade solder and zinc wires

Awards & Recognition

Proud recipients of industry recognition for quality and reliability.

★ **Award of Excellence**
Crompton Greaves Ltd.

★ **"Most Reliable Supplier"**
Epcos India

★ **"Sustainable Supplier"**
Certified by SGS since 2008

★ **Appreciation Certificate**
ASLV Project, Vikram Sarabhai Space Research Centre

★ **"Vendor of the Year"**
Tata Metaliks DI Pipes Ltd.

Frequently Asked Questions

What does Kothari Metsol specialize in?

A trusted manufacturer of thermal spray wires in India — zinc, aluminium and solder wires for industrial and commercial coating applications.

What sets Kothari Metsol apart?

Unwavering commitment to excellence, precision engineering and customer satisfaction — renowned for reliability, consistency and competitive pricing.

Do you offer customization options?

Yes — our team works closely with clients to understand their requirements and deliver tailor-made wire solutions.

How does KMPL ensure timely delivery?

Efficient logistics and streamlined processes ensure prompt dispatch and delivery across India and beyond.

KOTHARI
METSOL

Ready to Source Reliable Wire Solutions?

German technology, Indian manufacturing — trusted since 1966.
